Art Unit: 1615

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 14 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claim remains rejected for the reasons set forth in Paper No. 9, mailed January 13, 2003.

Applicants' amendment does not overcome this rejection. The claim refers to optionally substituted lower alkyl group, lower alkoxy group, cycloalkyl group, nitro group, etc. There is no evidence of what the substituents are. How does a lower alkyl group differ from a substituted lower alkyl group? The named groups for substituted are not described.

Claims 13 and 14 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the

Art Unit: 1615

claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The claims are multiple dependent claims that depend on a non-elected claim, claim 11.

Claim 15 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims. The claim depends on rejected claim 14.

Claims 1-4 and 17 are allowed.

Claim 14 is rejected.

Claims 13-15 are objected to.

Claim 16 has been canceled.

Claims 5-12 are nonelected claims.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is

Art Unit: 1615

filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action..
